Dahua Playback / Exporting Footage

1. Playback Video on Dahua NVR/DVR

1. Rightclick on menu then select playback
2. Access Playback Menu

3. Use the calendar on the right to select a date with recording, Select the camera(s) you want to view (tick the checkbox), click search or it may auto-load, a timeline appears — click on the coloured segments (they represent recorded events).

4. To play the footage use the playback controls (Play, Pause, Fast Forward, Rewind)

2. Exporting Footage

1. Click **Scissors icon** or **Clip/Export** (depends on firmware).

2. Press **Start** at the beginning of the clip, Press **End** at the end of the clip.
3. The selected footage is now marked.
4. Now insert a USB into the device.
5. Click Export or Backup.
6. Wait for the process to complete.
